Journal Surveys

RITA LIBERTI, EDITOR
California State University, Hayward

North America

EDITOR’S NOTE: Beginning with this journal survey we have opted no longer to include abstracts of the articles but merely list their titles. We have also decided not to survey all other mainstream sport history journals on the grounds that readers of this journal probably consult those as well. Nor will we be looking at sport-specific historical journals. Our focus will be on those journals that might not normally be read by sport historians and those published by other sport history societies.—WV
